MRS. SWITHIN C. SHORTLIDGE.

Rheumatism,

BEING due to the presence of uric acid in the blood, is most effectually cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this testimony:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. L. A. Stark, Nashua, N. H.

Ayer's Sarsaparilla,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1; six bottles, $5. Worth $5 a bottle.

Eases Pain Instantly. Strengthens Weak Parts. Quiets Nervousness.

Hop Plasters
A New England Household Remedy.
Universally popular because of real medicinal merit. For the countless pains and aches, soreness or weaknesses, no matter how caused or how severe, which attack the human body, no remedy in the world is so prompt and thorough in relieving, curing and restoring as the Hop Plaster.
Uncolicited Testimony of thousands of people, and the constantly increasing sale of these plasters, is ample proof of the truth of this assertion.
☞ HOP PLASTERS never burn or irritate.
If you suffer apply one now; you'll feel happier to-morrow. Feels good the moment put on.
BUY, SEE HERE. Hop Plasters are sold by all medicine dealers. Don't be swindled into taking a substitute or imitation. Signature of the proprietors will be found on the genuine goods.
HOP PLASTER CO., PROPRIETORS, BOSTON.
Examine when you buy. Avoid dishonest dealers.

LOVE'S ANALYSIS.

If ye would trace Affection to the source
From which it springs;
If ye would gauge the secret depth and force
Of hidden things;
The searching heart must be attuned aright,
The spirit capable of lofty flight
On Fancy's wings.

So fathomless! illimitable! grand!
Love's bound or measure
Can ne'er be traced on either sea or land;
That peerless treasure
In Life's pure light, transparent and refined,
The roseate tinge of Hope and Truth combined
With chastened pleasure.

High as the glittering orbs that roll in space,
Deep as the sea;
Wide as the wind sweep over Nature's face,
Joyous and free;
Pervading Heaven and Earth, the choirs above
Echo the music of Eternal love
And sympathy.

The costly gem, entombed for countless days
Within the mine,
But half conceals the iridescent rays
Of light divine;
So Love will sparkle in the darkest night,
And in Misfortune's care beclouded light
Will brightest shine.

THE LITTLE OLD LADY.

Mrs. Quiverfull was tired; Mrs. Quiverfull was not well. The girl, after giving her such impudence as you never heard in all your born days, had told her she was no lady, and had flounced away with her bandbox in her hand, shaking her fist on the corner and anathemizing the humble cottage from the back platform of the car as a place not fit for a decent gurrel to stoop to live in. Consequently Mrs. Quiverfull had executed her own washing, performed her own cooking, accomplished her own dish washing and velocipeded her own baby to the accompaniment of what she described as a raving headache, and was not in the humor to greet her lord and master with the beaming smile recommended in "Guides to Young Matrons," and other excellent works written for the improvement of those who are married, principally by those who never were.

Indeed, not only did she fail to smile, but she positively frowned when Mr. Quiverfull jokingly tickled her under her chin and cried: "Well, wifelet, how has the world been going with you today?" and answered:

"Going, indeed!" with a tragic expression and appropriate gesture, as of casting all earthly things—Mr. Quiverfull included—away in despair.

"Girl gone?" asked that gentleman, assuming a serious demeanor and pulling his feeble red mutton chop whiskers softly.

He was one of the few who still cling with tenacity to those curious outgrowths of the masculine cheek, and are rather proud of them.

"Words cannot describe how she went, or the filth of the kitchen," said Mrs. Quiverfull. "I've been crawling over it on my hands and knees to scrub it, and there is a nest of rats in the dresser drawer and a curtain of spider webs over the window, and her three Saratoga trunks right in the middle of the entry, not sent for yet. And she has left her hairbrush in the refrigerator and her pot of pomade in the meat safe."

"Dear, dear, dear!" sighed Mr. Quiverfull. "Now what shall I do for you? How can I help?"

"Take those children from under my heels," said his lady, "if you want any dinner."

"Well," said Mr. Quiverfull, who had eaten a slice of bread and a cold boiled egg at noon, and had had a long journey from his office to his suburban cottage, and was desperately hungry, "well wifelet, just a bite of something when it is ready."

"Oh, I've no doubt. Nothing disturbs a man's appetite," replied wifelet, who was a head taller than her spouse and weighed considerably more. "If I were at death's door you could gobble."

Whereupon she flounced into the kitchen, and Mr. Quiverfull, somewhat injured as to his tenderest feelings, for his wifelet had never used him thus before, formed the five small specimens of young America, who were rolling about the floor, together into line, headed them with the baby on his shoulder and marched them into the garden, where he played with them until his wifelet thrust her head out of the window and remarked:

"After all my toil and trouble he intends to let the meat get cold before he carves it."

"Certainly," said Quiverfull to himself, "Amelia is upset today."

But all he did was to marshal his host in doors and help to incase each in a blue check eating apron, and he tried to be cheerful, poor man! and he praised the dinner, and he told a funny story that Stibbs had told him, and he helped to wipe the dishes afterward; but nothing soothed his wifelet or restored her to her usual condition of mind. She had made up her mind that her lot was hard, that she had made a mistake in marrying a small clerk in a small drug store, that fate had afflicted her in bestowing five boys upon her and in recently adding a girl baby. All day she had been envying a maiden lady opposite, who sat in her luxurious apartment fanning herself and reading. What a happy fate was hers! She had an immense income. She boarded, she wore diamonds, she was driven out every afternoon; she had no cares and responsibilities.

Later, when she had retired, the baby asleep in her arms, and the five little Quiverfulls in their cots and cribs in the next room, she listened to her husband's small, peculiar snore, like the purr of a contented kitten, and scornfully curled her nose in the darkness.

"Why couldn't I have waited for a good match?" she said. "Why must I marry a red headed little man like that? I wish I was Miss Stickleback."

"If you really wish it, you can be," said a little voice at her elbow, and opening her eyes widely, Mrs. Quiverfull saw a little old lady perched upon the pin cushion in her work basket.

She was a very little old lady indeed, not more than two feet high, and wore a Watteau dress and powdered hair. She was fanning herself with a fan made of [illegible] humming birds' feathers, and she laughed as Mrs. Quiverfull prepared to cover her face with the sheet.

"You need not be afraid of me," she said. "I am your well wisher. You have never believed in fairies, I suppose? Well, now you see one. I am a fairy. I heard you bemoaning yourself a little while ago—regretting that you were not Miss Stickleback, and wishing yourself rid of your little red haired husband with a small salary, your five big boys and your squalling infant. I can't blame you, either, a pretty woman like you. You weren't made for dish washing and dinner getting. Miss Stickleback does have a good time, but she wants a husband and offspring, so, if you like, I'll say a few words, wave my hand and change you. You shall be the wealthy spinster, she the overworked married woman."

"I—don't like," faltered Mrs. Quiverfull—"I feel"——

"Oh, you want to get up and cook breakfast, I suppose," said the fairy. "Well, tastes differ. I shouldn't."

"Oh, I don't, either," sighed Mrs. Quiverfull. "Only"——

"You would like a change," said the fairy.

"Yes," said Mrs. Quiverfull.

Suddenly there was a ringing of bells in her ears—no, not quite like bells, either; rather the murmur of a swarm of bees. She was rising, floating, flying. She opened her eyes upon a room full of pale, rosy light. The perfume from a bunch of jack roses came to her. The quilt that covered her was of softest silk; the sleeves of her nightgown was of rich lace. She recognized the lovely lounging chair in which Miss Stickleback lolled half the day. The fairy had kept her promise. She had become the free, happy, rich Miss Stickleback.

Shortly a maid entered the room and whispered that the bath was ready if miss was.

What a delightful bath! what delightful towels? what a delicious breakfast afterward? The post brought invitations to lunches, to afternoon teas, to theatre parties. What a happy life! And here was the new novel, and time to read it in. But as she flirted the pages a little voice called, "Good-by, papa," and peeping out of her window she saw a little man with red whiskers come out of the gate of a tiny cottage, followed by five little boys. He kissed them all round and jumped each one over the fence. Then there was a pretty woman in a blue calico wrapper with a baby in her arms, and she fixed his cravat for him, and he kissed them both. Then he stopped on the corner and waved his hand before he took the car.

"Oh, it's Jim!" cried the false Miss Stickleback. "Oh, it's Jim! It's my husband! Oh, oh, oh! There are my children! That's my baby! That's me! No, I mean it isn't me. I'm somebody else. Oh, oh, dear! Oh, dear me! Oh!"

"Are you ill, miss? Can I do anything?" simpered the maid, popping in at this juncture.

"You can go away," said the transformed Mrs. Quiverfull, snappishly.

The maid vanished.

"What shall I do?" moaned Mrs. Quiverfull. Instead of a plump brunette she beheld a slender blonde in a morning robe.

"Jim never would believe it was me if I swore it!" she exclaimed, wringing her hands. "And she would

FRIDAY, JUNE 6, 1890.

The Supreme Court is now in session at Harrisburg.

The tomb of Lafayette was handsomely decorated by Americans in Paris on May 30th.

Some republican organs are finding fault because their state chairman, Andrews, is using his official position to secure the nomination of Delamater for governor. What do they suppose Andrews was elected for, any how?

Democratic State Convention.

The democratic state convention of Pennsylvania, will assemble at the academy of music in the city of Scranton at 10 o'clock a. m., on Wednesday, July 2, 1890, to nominate candidates for governor, lieutenant governor and secretary of internal affairs. The convention will consist of representative delegates chosen under the rules of the party from, the several assembly districts, one for each 1,000 democratic votes cast at the last preceeding gubernatorial election, or for a fraction of 1,000 such votes amounting to 500 or more in the respective representative districts, provided that each representative district shall have at least one delegate.

WASHINGTON LETTER.

(From our Regular Correspondent.)

Washington, D. C. June 2, 1890.

Senators Sherman and Allison are at logger heads over the crazy quilt hodge podge known as the McKinley tariff bill, and Senator Allison is reported to be preparing a speech to be delivered against the bill on the floor of the Senate, should he fail, as now seems probable, to carry his point in the Finance Committee. In the meantime the party leaders seem to have gotten the whip hand of the kickers, certainly so far, as the republicans of the committe are working like Beavers to get through with the bill, and up to date they have made no changes of importance. Some republicans say the bill will be reported in a week, but it is more probable that it will take four weeks to get through, allowing that harmony continues in the committee, which is by no means crtain.

Speaker Reed is getting a good deal of cheap notoriety because he issued an order prohibiting the sale of drinks in the House restaurant. The only effect of the order has been to stop the sale of drinks over the bar, and to put the proprietor to the trouble of serving liquor to his guests seated instead of standing, in the good old fashioned way. Sitting at a table to take your whisky is a Boston idea.

The fiery G. A. R. order whose fellings suffered excruciatingly because the people at Richmond choose to enjoy a harmless bit of sentiment by exhibiting the flag of the confederacy, was in his glory in this vicinity on Decoration day. He was quite numerous but also perfectly harmless. No sensible person does anything but laugh at him.

When Senator Stewart stated on the floor of the Senate that Major Powell, director of the Geological Survey, was at the head of "a lying-in hospital for lame ducks", he struck the nail square on the head. The Geological Survey occupies large and luxuriously fitted up quarters here, and no man has ever been able to put his hand upon anything tangible performed by the bureau and it has long been a standing joke that the only work performed by Major Powell and his numerous assistants was in the nature of lobbying to get fancy appropriations through Congress for them selves. These fellows call themselves scientists, and perhaps they are. They have certainly learned the science of living in style at expense of the Government. An investigation would amount to nothing unless the "pull" which Major Powell has so long and successfully had upon Congress should fail to work.

Assistant Post master General Clarkson, who has of late been passing as the special champion of the anti civil service legon, has disgusted many of them by proving himself to be as great a humbug as the civil service law. Mr. Clarkson recently discovered that just as his official life was nearing its close, the postal service on the Pacific cost was needing an official inspection by him, and yesterday, having previously made arrangements with an obliging railroad official for the use of a private car, Mr. Clarkson started on his farewell junket. At Des Moines his family will join this model official who is doing his level best to reduce the Treasury surplus. As soon as Mr. Clarkson gets tired of traveling over the Pacific slope he will return to Washington, and resign.

Senator Carlisle is the latest democratic statesmen to give the Farmers some good advice In reply to a letter from a gentleman asking his views of the bill, which has just been reported adversely dy the House Committee on Ways and Means to provide for the establishment of subtreasuries for the storage of agricultural products, Mr. Carlisle says: "The farmers have been taxed so long for the benefit of other classes and have seen so much legislation for the aggrandisement of corporations and syndicates that their patience is exhausted, and finding it impossible, for the time being at least to abolish the system which has oppressed and despoiled the greatest industrial interest of the country, they have heretofore denounced as unjust and ruinous, shall be applied to them, or rather a part of them, for no scheme has yet been suggested that will operate alike upon all foreigners. But no evil can be corrected, no wrong can be righted by increasing its magnitude and extending the scope of its operation. There is but one effectual remedy for the evil which undoubtedly exists, and that is to reverse the policy which produced it."

Postmaster General Wanamaker is earning the illwill of all the small Washington pension agents, because he is allowing one large firm, which publishes a paper, to violate the postal laws in sending out copies of that paper. Like Mr. Wanamker, the head of this favored concern was a large contributor to the Reublican campaign fund, which excuseth many things.

A Correct Forecast.

It is the opinion of dispassionate political observers that the Democratic chance of defeating the Republicans in the State at the next election depends upon the action of Quay. If Quay shall succeed in enforcing his will in the making of the Republican ticket the result will likely be Republican defeat. This view was expressed the other day in an interview with ex-Governor Curtin in New York, who, when questioned as to the political situation in Pennsylvania, said:

"It looks to me as though Boss Quay would succeed in forcing Delamater on his party."

"And if he does?"

"If he does he would be beaten that's all; that is, if the Democratic party makes a wise nomination. It is my opinion that about the only hope the Democrats have of carrying Pennsylvania is in the stupidity of Republicans and the aggressiveness of Quay."

"Governor, how about the recent attacks upon Mr. Quay's private character?"

The Governor was emphatic in reply "Quay has not answered them. Why does he not answer? No man can afford to be silent under such a stigma."

This is unquestionally a correct view of how the political land lays in Pennsylvania at this time. Results depened greatly upon Quay's action. If he is aggressive in the making of the State ticket thousands of Republicans will decline to give it their support. And there is every appearance of his determination to be aggressive.—*Bellefonte Watchman.*

A State Redeemed.

The exposures made by *The World* some months ago of the corrupt and corrupting character of the Louisana Lottery were intended to defeat the effort of the gambling concern to get its lease of life extended for another quarter of a century.

The news from New Orleans now is that this purpose, so ably and courageously supported by Gov. Nicholls, is to be crowned with success. There is a clear majority, though a small one, against the Lottery in each house of the Legislature.

Further than that, an alert and beter minded Legislative Committe has been set to investigate the bribing done by the Lottery people or in their behalf and there is every promise that enough of the iniquity will be exposed to work the purification of Louisiana politics through the permanent retirement—to State prison and elsewhere—of a considerable number of hitherto active and influental statesmen and politicians.—*World.*

A New Property of Steam.

SOMETHING THAT MAY ACCOUNT FOR MYSTERIOUS BOILER EXPLOSIONS.

Mr. F. G. Fowler, of Bridgeport, Conn, addressed a society of engineers recently respecting his discovery of a property of steam which, under some circumstances, will cause an instantaneous doubling of boiler pressure without the application of more heat. His claims were demonstrated by a small boiler, in which the pressure was raised to forty pounds, and after being removed from the fire suddenly thrown to eighty pounds. In another experiment the pressure was raised in an instant from 80 pounds to 160. It was claimed that this property accounted for many so-called mysterious boiler explosions or those which withstood the inspector's test and then exploaded at lower pressure. It was shown how this property could be readily removed from the boiler, and the same was demonstrated by successful experiments.

The Real Interests of the Farmer.

What can the Goverument do for the farmers? We should say decidedly that there is not a great deal the Government can do for the farmers, and that it ought to do for any class or occupation. The business of the Governmeat is to maintain peace and order, to protect person and property, and to defend the nation against foreign aggression. There is not much beyond that that lies within the proper scope of Government.

But there are two things within the power of the Federal Government that would be of immense benefit to the country as a whole and to the farmers in particular. These two things are the reduction in Federal taxation and the securing of wider markets for our produce. The greater part of the taxation imposed by Federal laws never goes near the Treasury. When Mr. McKinley advances the duty on window glass the American manufacturers meet in Pittsburg and chalk up their prices, or they stop their furnaces for three months in order to bring about a scarcity. Every man who buys American glass pays a tax on it just as truly as though he bought imported glass, but it doesn't go to the Government. It goes to manufacturers, who, on account of the great profits in the business are increasing their plants, according to Quay's and Bayne's friend James Campbell, so rapidly that they cannot get glassblowers enough in this country and have to import them, in violation of law, from Europe. A decrease of Federal taxation that would reduce the revenues $50,000,000, would reduce the burden on the tax payer vastly more it might be $200,000,000, or it might be $800,000,000, and the reduction could be made so that it would be a positive boon to the manufacturing interests themselves.

The other measure is the opening of new markets for our produce. The people of Europe who need cheap American food are keeping up a constant agitation against the tariffs of their own governments upon our breadstuffs and provisions. These tariffs are maintained by nearly all the nations of continental Europe for protective reasons, for what Republicans call the "American" system, is, as Daniel Webster told Henry Clay, an importation from Europe. Some tariff concessions on our part would undoubtedly secure large concessions from France and Germany because our interests are the interests of large portions of the French and German people. But our discrimination against Mexican silver-lead ore has already led Mexico to put a prohibitory puty on the corn Kansas has been exporting to our sister republic, and the McKinley bill has started a movement in France, Holland and Germany inimical to the import of food from this country.

The interest of the farmer is reduced taxation and increased markets for farm produce, the policy of the McKinley bill is increased taxation and reduced markets.—*Ex.*

Hood's Sarsaparilla

Is continually proving its merit as a valuable medicine, by the many cures it is accomplishing. This positive merit is the secret of its wonderful and unparalleled success. All we ask of any one needing a good medicine is that Hood's Sarsaparilla be given a fair trial. We know that it is prepared with the greatest care from the best ingredients it is possible to obtain, that its Peculiar Combination, Proportion and Process do give it superior curative power, and that for all diseases or affections caused by impure blood or low state of the system, it is absolutely unequalled. It will cure, when in the power of medicine, Scrofula, Salt Rheum, Sores, Boils, Pimples, all Humors, Dyspepsia, Sick Headache, Indigestion, Catarrh, Kidney and Liver Complaints, etc.

Hood's Sarsaparilla

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but possessing just those elements which the system needs and readily seizes, Hood's Sarsaparilla builds up in a perfectly natural way, all the weakened parts, acts upon the blood as a purifier and vitalizer, assists to healthy action the kidneys and liver.

"I have sold three times as much Hood's Sarsaparilla as of all others combined, in my 17 years in business." W. D. MELICK, Sunbury, Penn.

Hood's Sarsaparilla

"Seven years ago, my little boy was bitten by a spider. The poison entered his blood, and sores soon broke out about his body; they itched terribly and caused him intense suffering. Finally we tried Hood's Sarsaparilla, and he took one bottle and one-third of another, when the sores disappeared. He has not a sore spot on him now, and is perfectly cured." WM. H. B. WARD, Downington, Penn.

Hood's Sarsaparilla

"I have taken two bottles of Hood's Sarsaparilla for salt rheum and dyspepsia, with which I was troubled very much. After taking this medicine I am feeling as well as ever in my life. I consider and advertise to others that Hood's Sarsaparilla is the best blood purifier." G. W. ROSE, Pottsville, Penn.

Hood's Sarsaparilla

"I suffered a great while with dyspepsia. I was urged to try Hood's Sarsaparilla, and have taken two bottles. It has entirely cured me of dyspepsia, and a scrofulous affection has also entirely disappeared. I can hardly find words to express my high appreciation of Hood's Sarsaparilla." ALLEN H. MELHOLM, City Hotel, Lancaster, Penn.

Hood's Sarsaparilla

"I have used Hood's Sarsaparilla and find that it accomplishes all that is claimed. I was troubled with a breaking out of the skin, commonly called 'hives.' Hood's Sarsaparilla gave me immediate relief. I can cheerfully recommend it to all those similarly troubled." WM. GALLAGHER, Weighmaster 9th Ward Gas Works, Philadelphia, Penn.

Hood's Sarsaparilla

"For three years I suffered with dyspepsia, growing so bad that I was at one time completely broken down in health. I began taking Hood's Sarsaparilla on trial, and seeing that it was doing me good, continued with it. After taking six bottles I gained strength and appetite and was restored to my former health." JOHN E. RUSSELL, Brookville, Penn.

The young German Emperor, for adventure, recently donned the uniform of a private soldier, shouldered a rifle and took a turn at guard duty in the place grounds. When his escapade became known his intimates asked him what he thought about as he paced back and forth in the rain. "I was thinking," replied Wilhelm II, "of how many million poor fellows had performed the same duty while loathing it and of the hundreds of thousands who have given up their lives in wars of whose cause they knew nothing and cared less for the outcome" There are several other indications that the boy emperor is an origiual kind of a monarch.

Miss Alice G. McGee, was admited to practice in the several courts of Warren County, this State, May 13, 1890. In presenting her name to the Court D. J. Ball, Esq., of the Examining Commission, stated that she had passed a most creditable examination. After administering the oath to the fair lawyer, Judge Brown congratulated her and praised her perseverance and ability. The ladies of the Political Equality Club afterward presented her with a testimonial and boquet of roses.

Miss McGee was a student in the office of Noyes & Hinckley, who speak in the highest praise of the young lady lawyer's legal qualifications. She graduated from the Warren High School in 1886, and after ward was public librarian and also taught school. In February, 1887, she commenced the study of the law.

G. A. R. Men Displeased.

THEY OBJECT TO THE GROWING SECULARIZATION OF DECORATION DAY.

The Grand Army men of Williamsport are opposed to the secularization of Decoration Day, and at a meeting adopted resolutions expressive of their feeling. They say that the practice of desecrating a day which has been recognized by universal consent as sacred to the memory of those who died that the nation might live, by the growing practice of devoting the day to sports and pastimes, has a tendency toward creating among the young a sentiment entirely foreign to the spirit which actuated the setting apart of May 30 as sacred to the memory of the fallen soldiers.

The matter was discussed by the members of the Memorial Committee, and the resolution was passed unanimously.

Some of the vetrans express themselves as of the opinion that the growing habit of devoting the day to base ball and other sports, will in a few years, virtually destroy the original idea of its observance.

A HINT TO ANGLERS.

The angler should take care of his fish after he has caught them. It is discreditable to fetch back a lot of sun and wind dried trout, all curled up and stiff. Put a handful of grass or ferns in the bottom of the creel and kill the fish as soon as caught, by hitting them a sharp blow on the back of the head. If the weather is hot, clean the morning's catch at noon, and every few hours dip the creel in the stream. The best way to keep trout to take home is as follows: Clean them thoroughly, taking care to remove the gills and blood under the back bone, wipe dry inside and out, but do not wash them, sprinkle them inside with black pepper, but on no account use salt. Pack in cool, fresh grass and keep them in the shade. If ice is used it should be put in a tin can or at least at the bottom of the creel, for it spoils the flavor of trout to have them soaking in water.

GUAVA.

C. F. Mann moved in this place on Tuesday. He will try keeping house awhile, thinks he will be more contented. Our best wishes go with him.

There was an excursion on the B. & S. R. R. last week. It contained F. M. Leader, General Manager B. & S. R. R, Capt. Conner, Samuel Wigfall and two other gentlemen, one was Mr. Belles from London, England, and Mr. Freeman from Pensacola, Florida. The two latter gentlemen were looking after a large timber tract, which they expect to purchase. They were conveyed from Jamison City to Ganoga Lake by stage where they will remain for a few days. An accident of some note happened Mr. Belles on his voyage from England to this country. The vessel in which he came, we are told ran into another vessel of several tons burden and was sunk, with some of the crew on it. We are not positive of this fact, but such is reported.

The second annual anniversary will again meet on the 5th of June in the beautiful grove of the Hess Bros. Every connection of the Fritz's are requested to be present. Good speaking will be in attendance. Everybody is invited to come.

The Box festival at Five Points was largely attended on last Saturday night. The idea of the boxes were, each lady brought a box filled with supper for two, and these were auctioned off. The gentleman who got the box had his name written on it, and when all were sold they were distributed to the owners, and were opened and the lady's name that was concealed in the box was the one he was to eat supper with. Some of the young men from Central ate supper with women old enough for their grandmother.

Mr. Will Fulmer and his sister Mame were visiting Miss Rhetta Hawley on Saturday and Sunday last. They drove home on Sunday afternoon.

HE is very much delighted. While in Philadelphia recently he called on E. O. THOMPSON, the well known Clothier and Importer, No. 1338 Chestnut St., (opposite the Mint), and bought an elegant Black Fancy Cheviot Suit for $13. 50. Such a suit would have cost him Twenty Dollars at home. Had he not been in the city he could have sent his name and address on a postal card or in a letter and received by return mail samples of various cloths, also simple guide for taking his own measures, free of charge. Any one can order from Mr. Thompson by mail with the same satisfaction as by calling in person.

Sheriff's Sale.

C. Leverett, President of the Standing Committee, Col. J. G Freeze, Chancellor of the Diocese, and Paul E. Wirt and Geo. E. Elwell, lay deputies.

Eckley B. Coxe's big iron breaker at Drifton will be put into operation soon. It is one of the most perfect coal breakers ever constructed, absolutely fire proof, there not being five thousand feet of lumber in the whole structure and built in a manner to make it perfectly safe for the employes. It is the only breaker of its kind in the world, and when in operation will be capable of preparing all the coal that will come from the mines at Drifton.

B. W. Drake, who has the well known wagonmaker stand of J. H. Keim at Light-Street, is doing a good business there. He is prepared to do all kinds of carriage building, blacksmithing and general repair work. Farmers will find it to their interest to call upon him. Frank Hower has charge of the painting, and he is an excellent workman in that line. Mr. Drake expects soon to make an addition to the building which will be used for painting and finishing.

There was a meeting of the executive board of the Columbia County Agricultural Society at the Exchange Hotel Saturday last where bids were received for printing the pamphlet of the list of premiums to be awarded by the association. The *Sentinel* bid $1.10 per page and the COLUMBIAN 87½ cents—nearly one third less.

Will Krickbaum please call the attention of the County Commissioners to this economy and urge them to get their blanks and stationery of the lowest bidder.

The Webster's Dictionary offered by the COLUMBIAN with a years' subscription, and three months' subscription to the New York Weekly *World* for $3.50, is furnished by the *World*. We have received many letters of inquiry, and in answer would say, that that the book is the edition of 1847. The type is small but legible, and the book is substantially bound. It is nearly as large as the present edition. For general use it is a big bargain for the money, but we would not recommend it for schools, as it is not the latest edition.

The following letters are held at Bloomsburg, Pa. post office and will be sent to the dead letter office June 3, 1890.

Mr. James M. Bright. Mr. Edward Rosewell, Mr. F. E. Renner, Mr. J. C. Tubbs.

Persons calling for these letters please say, they were advertised June 3, 1890.

One cent will be charged on each letter advertised.

A. B. CATHCART, P. M.

C. Mears & Son have leased the old planing mill at Espy, where they will make their washers until permanent arrangements can be made for their rebuilding in this place. Their business of making washers is increasing year by year, and when they rebuild it should be in some place where they can enlarge as the business demands. Until arrangements can be made they will be prepared to furnish all kinds of planing mill work at Espy. Southern poplar for wagon makers use always on hand and dressed to order on short notice.

Thomas Gory has received the contract for building the dwelling house and reception hall for the Rosemont Cemetery. The building will be located at the south east corner of the plot and will be 30 feet square. Adjoining the building will be an iron entrance gate for footmen and next to it a double iron entrance gate for teams. There will be a reception hall and water closets for the use of the public, while the building itself will be occupied by the sexton.

No organizations in the United States have multiplied more rapidly in the past ten years than the sick-benefit, funeral-aid, death-benefit, and other kindred societies.

As they are generally confined to the humbler walks of life, the good they have done is incalculable, carrying aid to thousands of stricken families and inspiring those who are fortunate enough in being members with a courage which might not exist in their hearts without them.

The members of these organizations will be glad to learn that Hon. Robert P. Porter, Superintendent of the Eleventh Census, will endeavor to secure the statistics of the noble work these associations are doing, and it is safe to say no other branch of the census will be more interesting.

The business of gathering the data has been placed in charge of Mr. Charles A. Jenny, special agent of the insurance division, 58 William street, New York City, and all associations throughout the United States whether incorporated or private, should assist by sending to him the address of their principal officers.

DECORATION DAY.

Although many people left town last Friday to visit Berwick and other places the attendance at the exercises of Memorial Day was large, the parade was imposing, and the exercises interesting. In the morning, Ent Post G. A. R. accompanied by the Bloomsburg Band, started out in wagons, and visited Vanderslice's, Light Street, Hidlays, Afton, and other cemeteries, and decorated the graves of soldiers. At 2:30 a procession was formed on Market square in the following order: Bloomsburg Band, Ent Post G. A. R., Bloomsburg Camp P. O. S. of A., Sons of Veterans, Gilmore's Band, Friendship Fire Company No. 1, Knights of the Golden Eagle. Marching up Main street to the Normal School the procession was joined by the Philologian and Calliepian Literary societies and all proceeded to Rosemont Cemetery. After the exercises there, an address was delivered in the Opera House by Rev. D. M. Kinter.

Consistency is a Jewel.

Both the editors of the *Columbian* and the *Republican* some time since tried to take a good bit of credit for economy to tax payers by cheap letting in court calendars. As they are both on the school board now we will see whether they will apply the same rule to advertising the school statement—consistency is a jewel. Try the lowest bidders once. Try it.—*Sentinel May* 30.

The school board having awarded the printing of the statement to the *Sentinel* and *Republican*, without bids, we presume Krickbaum now cares very little about economy to tax payers. If he has the least spark of the jewel of consistency he will call the attention of his readers to the fact that the only printing the County Commissioners let to the lowest bidders was the Court Calendar and the COLUMBIAN was nearly one-third lower than the *Sentinel*. If Krickbaum is sincere let him urge upon the County Commissioners to put all their printing, blanks and stationery, to the lowest bidder. Let him call the attention of the County Commissioners in his next issue that they are losing an opportunity of economy to the tax payers.

Resolutions of Respect.

VAN CAMP LODGE, NO. 140, I. O. O. F.

Bloomsburg, Pa., June 2, 1890.

WHEREAS. In view of the loss we have sustained by the decease of our friend and associate Peter E. Knapp, and of the still heavier loss sustained by those who were nearest and dearest to him. Therefore be it,

RESOLVED: That it is but a just tribute to the memory of the departed to say, that we regret his removal from our midst; we mourn for him who was worthy of our respect and regard.

RESOLVED: That we sincerely condole with the family of the deceased, on the dispensation with which it has pleased Divine Providence to affect them, and commend them for consolation to Him who orders all things for the best, and whose chastisements are meant in mercy.

RESOLVED: That these resolutions be spread upon the records of the Lodge, and published in the Iowa papers and a copy thereof be transmitted to the family of our deceased brother.

A Woman in the Case.

There always is. She is the power behind the throne. A woman's influence over the man who loves her is often absolute. To wield so great a power to guide, strengthen and help her husband, a woman's mind should be clear and healthy. It cannot be if she is suffering from any functional derangement. How many a home is made unhappy because she who should be its life and light is a wretched, depressed, morbid invalid! Wives, mothers and daughters, why suffer from "female complaints" which are sapping your lives away, when Dr. Pierce's Favorite Prescription will renew your health and gladden those about you? It has restored happiness to many a saddened life. Why endure martyrdom when release is so easy? In its special field there never was a restorative like the "Favorite Prescription."

To cleanse the stomach, liver, and system generally, use Dr. Pierce's Pellets. 25 cents.

Notice To Teachers.

The Bloomsburg School Board will meet on Friday, June 20, 1890, to select teachers and janitors for the ensuing year. Applications from experienced teachers only will be considered. Applications will be received by the Secretary up to said day.

A game of base ball was played at the Park Monday afternoon between the Light Street club and a club of colored players from this town, resulting in the defeat of the latter by a score of 27 to 25.

Miss Ada Hartman, daughter of I. W. Hartman was married on Tuesday to Rev. S. E. Bateman, pastor of the Lutheran church at Hagerstown. Rev. S. W. Sears pastor of the M. E. Church performed the ceremony at the residence of the bride's parents, in the presence of a few of the near relatives.

Base Ball.

An interesting game of base ball was played at Athletic Park Saturday last between the Danville club and Bloomsburg. The Danville club came up here with the best players they could gather for the occasion, and evidently intended to shut out the home team. In the first inning the Danville team scored four runs, three of which were obtained on account of wild throws, this put a chill on the game from the start. After the first inning there was good playing done by both sides, and everybody acknowledged it as nice a game as has been played upon the grounds. The following is the score in full.

NORMAL SCHOOL NOTES.

Decoration day was passed rather quietly 'on the hill'. The societies had gathered a great many flowers in anticipation of their joining with the citizens in the exercises of the afternoon, but the rain put an end to their prospects and they were content with simply sending several details of the young men to deliver the flowers to the committee in charge of the decoration of graves. In the evening, however, the two societies and their many friends from town, together with the Col. Ent Post, assembled in Normal Hall, to listen to the joint programme prepared by the two literary societies.

The exercises of the evening were opened with singing the national hymn, "America," the entire audience joining. This was followed with a brief but very timely address by Prof. G. E. Wilbur, after which came a recitation, "Our Glory, the Army of the Dead", by Miss Minnie Kitchen. The Misses Karcher and Garrison then rendered a very pleasing instrumental duet, after which Miss Edith Moses recited "The Pride of Battery B", and this was followed by a male quartette by Messrs. Yetter, Yost, Bidleman and Colley. The evening's programme was concluded with a short address by Rev. D. M. Kinter, the same gentleman who delivered the Memorial address in the Opera House in the afternoon.

The entertainment over, the students repaired to the dormitory where a short time was spent socially.

Among the visitors who spent Decoration day or Sunday with us were Miss B. A. Breslin, of Hazleton, class of '81, and Mr. H. C. Bell, class of '85.

Mr. Sam Pursel, class of '89, has finished his year's work, and is back to school as a student to continue his studies beyond the Elementary Course.

Since our last 'notes' we have enrolled three new students, and thus our 'big family' is constantly growing.

Dr. Waller spends Monday of each week in Harrisburg, attending to the duties incident to his recent appointment. The remainder of the week he devotes to the school. As the year draws nearer its close and the days are being counted, expressions of regret are heard on all sides, at the separation of our honored Principal. While all wish him much success, and are glad of his appointment, all will part with him as from a faithful friend, a wise counsellor, and a capable, earnest teacher.

About thirty students took advantage of the Friday holiday last week, and spent three days at home.

The Normal School has been made a separate district in the enumeration of the census, with Prof. Wilbur as enumerator.

A Baby Saved.

Since birth my baby had running sores all over his head, and the doctors said that he must die, for they could not heal them. I used everything I ever heard of, but it was no good. He got so bad that he would not nurse. My husband's sister told me to try Sulphur Bitters as she had great faith in them. I used a bottle and the sores commenced to heal. After using two bottles more, the sores all healed and I considered my baby saved.—*Mother, Concord, N. H.* 6 6-2t.

THE SAME OLD COON.

The members of the Democrtic county committee met on Monday to elect delegates to the State convention to be held in Scranton on July 2nd, for the purpose of nominating candidates for Governor, Lieutenant Governor, and Secretary of Internal Affairs. There was no music in the meeting, everything going off smoothly. The following were chosen as delegates: Hon. Chas G. Murphy, of Centralia; W. H. Rhawn, Esq., of Catawissa; Robert Buckingham, Esq., of Bloomsburg, and R. G. F. Kahlnka, of Briarcreek. The delegates were uninstructed.

The fun was all before the committee met. George W. Sterner was a candidate for delegate, and had been working industriously for several weeks to make the riffle, but he fell into a pool so deep and dark that his name did not come before the meeting. We offer our condolence, and would suggest that the next time George comes out as a candidate he take a clean shave, hair-cut, black his boots, put on a clean collar, brush his clothes and wear a close muzzle.—*Catawissa News Item*, May 29, 1890.

All business men do it. For explanation inquire of the late nominee for Register.

It is something singular, fourteen or more in the family, Gorrey thrown in besides all their ramifications, then they merely *counted* a majority for Pet Sterner, the gazeteer of the barns, sheds, hog-pens and woods, over poor lonely Bill Jacoby. Now what are they going to do: And what have they got? Let the land owners, business men and property holders in the county answer. Bill Jacoby was no bounty soldier. Locked his office, served his time, honorably discharged, and home to fight another day. What's the matter with you: Are you hard up.

Pet Sterner the candidate for Register for this County seems terribly exercised lest he should have opposition at the polls from some *Independent* quarter. He has reason to entertain such fear, knowing, as he does, that nine-tenths of the Democracy scorn the idea of voting for such a thing as himself. He knows too that the people did not desire his nomination, as they regarded him totally unfit to fill the office, being vain, biggoted, pugnacious; qualifications more suitable to a person about to enter an asylum than the Registers' office. The Democrats *need not vote for him*, but act as in the case of John R. Yohe, when they elected I. S. Monroe and everybody was satisfied. Yohe was just as fit as Sterner. They will remember when they scratched the ticket and defeated J. R. Millard for Sheriff and elected Aaron Smith, everybody were Democrats and still the party survived. Two years ago the party did the same thing by electing Ent, who is making a good officer, still the party polled its heaviest vote last fall for Hancock! Scratching the ticket and voting for a better man, your choice, is not bolting the ticket. That is what is meant by a free ballot! And everybody would enjoyed it.—From *News Items*, "Bloomsburg Business". Taken on the wing by our own correspondents, after the Democratic nominations in 1881.

And now this *same old coon* that has been wandering wild of late years in the political woods destroying growths of honor and virtue by casting all kinds of filth at farmers and laboring men, deserves to be hunted down. I would suggest setting a trap at Scranton July 2nd, baited with $100 for a suit of clothes. He seemed to work well at that in 1878, and if it had not been for his friends he would have been caught in 1879 and placed behind the bars. The *Republican* of April 16, 1885 can tell how near it was done. He is beneath our further notice.

Decoration Day was rather quiet here, but on the day following we observed it in rather a novel way. As is generally the case with country burying grounds, ours has been left to be over-grown with weeds. Then after thoroughly pulverizing the soil, sow it with some kind of grass seed. It was not all done Saturday so a meeting has been appointed to be held every Saturday until it is finished.

SUNDAY SCHOOL CONVENTION.

The 21st Annual Convention of the Columbia County S. S. Association met a New Columbia Tuesday and Wednesday May 27th and 28th.

The weather was perfect and everything combined to make it one of the pleasantest and best in our recollection. On Tuesday evening a great many persons could not get within the doors. About 150 delegates were present and no doubt as many visitors. Many of our schools throughout the county were not represented, however, probably owing to the fact that the place was so distant from railroads.

Tuesday morning's short session was filled with the cordial welcome words and the response and a full report of the Statistical Secretary A. W. Speer. His report shows a decline in S. S. work in the county as shown by Twp. Conventions. After the appointment of committees in the afternoon a discussion of S. S. finance was opened by Rev. Tustin. He stated that four classes are benefited by the S. S. the teachers, the scholars, the church and the community. All of these should help support the school. The S. S. is the place to teach the children giving and that system. atically. This should be part of the work of every school. He was followed by others on the same subject, all urging the "putting-four-hand-in-four-pocket-and-giving" method of raising money for S. S. use.

The report of the delegate to the State Convention was full and very interesting. It told of the M. E. S. S. of Wilkes-Barre, showing the possibilities of the S. S. This school is thoroughly graded and scholars pass from one grade to another by examination as in public schools.

The essay of Miss Curran on the qualifications of the S. S. Teacher was full of grand thoughts expressed in beautiful language. She urged the necessity of teachers being trained to their work but placed above training or tact, knowledge of the pupils and of the text book and far above that the love of Christ permeating the life of the teacher.

In the evening Dr. Rittenhouse of Carlisle College deliveredia grand address on 'Truth'; What a S. S. teacher teaches." After showing the inefficiency of other religions and of ancient and modern philosophy to satisfy the longings of mankind he declared that Christianity as revealed in the Bible is the Truth, the whole truth and nothing but truth. Christianity alone teaches without error. In all other religions there are a few grains of gold in vast piles of rubbish—a few goodly maxims of spiritual wisdom buried in vast tomes of folly. Christianity alone proclaims truth with certainty and authority—not as a discovery but as revelation. Christianity proclaims truth in all its symmetrical completeness and organic unity—a marvelous and majestic balance of truth in all its relations. Instead of broken fragments of jewels Christianity holds up a great Kohinoor of truth, for the sake of which we would sell all these fragments. Christianity gives an ultimate statement of truth and alone brings us saving truth.

Two stirring short talks on Temperance were given by Rev. Crumbling and Rev. Milroy which closed the program for the evening.

The most of Wednesday was occupied with business. The reports of delegates showed that most of the schools are prosperous and the work growing. The committee on Time and Place of next meeting reported in favor of Benton, the first day of June, which

Men and Their Hobbies.

A statement made by a wise man is that "Every honest man has a hobby." The man in question did not use these precise words, says the *American Cultivator*, but they amount to the same in substance.

A man who is always tinkering around making something or other in the mechanical line, is never found spending his leisure hours in a gin mill or saloon. The young man whose hobby is study will be found at his books as soon as his day's work is done and supper is swallowed.

The chap who has "music on the brain" will be puffing or scraping his instrument early and late, until his friends almost wish he would quit his hobby and relegate himself to the rum shop.

Many young men ride a mechanical hobby, and are often building experimental machines, and making "young" steam engines. To such men, electricity possesses a most enticing field. There is no end to the directions in which thought may be profitably turned in connection with electricity. Well developed as it is, electricity is as yet an almost unknown thing, which will require lifetimes of study to the full understanding of all. Electricity is the future power of the world, as it has always been its life, although unknown and uncomprehended for ages.

That a young man will waste hours and days of his life in doing worse than nothing, when he has such a field before him, is scarcely to be comprehended, but it is a disgraceful fact. Let the young men awake to the idea that the advance of the world depends upon them personally; that the years to come may be better or worse as they choose to study or to be idle, and it seems as though they would quit beer drinking, dice shaking, and card shuffling instantly, to avail themselves of the privileges before them.

A man may be about what he makes himself nowadays, and if he chooses to become a sot, the way is open; if he chooses to become a power in the land he can do so by going to work in that direction and keeping at it.

Dangerous Precedents.

The Republicans are making very dangerous precedents for future Democratic power by the revolutionary rejection of men elected by the people and the substitution of men who were rejected by the people.

No party majority in the popular branch of Congress since our revolutionary war and reconstruction times has ever exhibited such reckless disregard of popular elections as the present House under the leadership of Speaker Reed. It was regarded as absurd by all parties to seat the three colored contestants from the South. Indeed, they expected only a liberal appropriation for expenses, but it is now decided that party necessity demands their admission to seats which were refused them by the people. As the Republicans have hardly an even chance to control the next House, they are simply making precedents which are likely to react upon them in the near future.

Equally violent was the dismissal of the Democratic Senator from Jersey and the admission of his defeated competitor. There would be good reason to declare the election void because of the frauds exposed, and the enactment of a reform election law was a guarantee of an honest expression of the peopleple; but the partisan majority of the New Jersey Senate seated its candidate without even the pretence of showing a majority for him.

Suppose that that change in the Senate should give the Republicans the majority on joint ballot when the next United States Senator is to be chosen, what could the Democrats do, with such a revolutionary precedent to invite them; with a majority in the House? Won't revolutionary leaders see that they are only inviting retribution alike from the law-loving people and from opposing partisan power when it gains the mastery?—*Times.*

The Slot-Box.

A CRMINAL THAT COULDN'T BE CHARGED WITH HIS CRIME.

A complicated case was brought into the Central Police Station Louisville recently. It was that of a man who had succeeded in beating a "drop-a-nickle-in-the-slot" box on the corner of Third and Jefferson streets. The man who was able to perform this feat was John Lewis and he is said to have made a thorough study of the subject before risking his nickle. He first bored a hole in the coin and then fastened to it a small black silk thread. He then dropped a nickle in the slot as directed by the sign and drew out a cigar. Seeing that nothing was stated in the directions as to how many times one nickle could be dropped in, he drew his nickle out and dropped it in again. Securing the second time, he continued to drop and continued to drop and continued to draw until he emptied the box. By the time he had drawn the twenty-ninth cigar quite a crowd had gathered around him and cheered him on. Their cries attracted Officers Schradel and Donahue, who arrested Lewis and took him from the circle in which he had become a hero.

At the station house the question arose as to what he should be charged with. After several suggestions of robbery, burglary, it was decided to place against him disorderly conduct. He was taken out on bond a little later by some of those whose cries had attracted the police.

What it Costs

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes, because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said "100 Doses One Dollar," and a bottle taken according to directions will average to last a month.

In The Treasury Attic.

Some of the queerest work of the Treasury Department is done in the attic and in the basement. You can have no idea of the varieties of business which are carried on inside these great walls. I stood for ten minutes recently and watched about 50 women sewing on carpets in the top loft of the Treasury. The carpet was stretched on frames like carpenters' saw-horses, and the girls were having kind of a quilting bee in joining the widths together. All the carpets of the government departments the country over are sewed here, and if a custom house at Cleveland or New York wants a carpet it sends a diagram of its room to the Secretary of the Treasury, and the carpet is here made and shipped. —*Cleveland Leader.*

The story is told of a German, who took the hands of his clock to the maker to have them fixed, because they did not keep proper time. Of course, the clock-maker demanded the works, as in them lay the trouble. Boils and blotches, pimples and other eruptions on the exterior tell of a disordered condition of the blood within. If you have these indications, be wise in time, and take Dr. Pierce's Golden Medical Discovery. It puts the liver and kidneys in good working order, purifies the blood, cleanses the system from all impurities, from whatever cause arising, and tones up the functions generally.

"Golden Medical Discovery" checks the frightful inroads of Scrofula, and, if taken in time, arrests the march of Consumption of the Lungs (which is Lung-scrofula), purifies and enriches the blood, thereby curing all Skin and Scalp Diseases, Ulcers, Sores, Swellings, and kindred ailments. It is powerfully tonic as well as alterative, or blood-cleansing, in its effects, hence it strengthens the system and restores vitality, thereby dispelling all those languid, "tired feelings" experienced by the debilitated. Especially has it manifested its potency in curing Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands.

"Golden Medical Discovery" is the only blood and lung remedy, sold by druggists, and *guaranteed* by its manufacturers, to do all that it is claimed to accomplish, or money paid for it will be promptly refunded.

The New Way of Keeping Cool.

One who suddenly enteres Washington market, in New York city, of a hot day, will be refreshed by the greatful coolness that fills the place. Throughout the building the temperature is just what a citizen would wish for his house during midsummer heat. The thought will perhaps, occur that a great quantity of ice is required to produce this effect. In that he would be mistaken. There is not a pound of ice used. Perhaps his eye will be attracted by a number of pipes that run overhead and down into the various booths and boxes where meat and other perishable provisions are kept.

These pipes will glisten as though covered with ice and snow, though the temperature be above 80 deg. outside the market. As a matter of fact, it is exactly ice and snow that covers the pipes, and nothing else. A freezing mixture of the salts of ammonia is pumped into the pipes from a plant in another street, and the vaporization of these salts produces the intense cold that chills the pipes till frost and snow collect on the outside of them even in midsummer. Thus the whole great market house is cooled and provisions are kept at a low temperature.

Here is one of the beautiful secrets of chemistry put to important practical use. The utilization of freezing mixtures is only in its infancy as yet. The freezing mixtures are not expensive. The time will come when milk and butter in dairies and farmhouses will be cooled in summer by this process, and the temperature of houses kept deliciously low. Then nobody need go away from home to escape the heat.

When a man is fortunate in business he attributes the fact to his ability. When he is unfortunate he bewails his bad luck.

His Wife Suffered from Erysipelas.

Mr. John O. Rogers, of Dana, Illinois, writes as follows under date of March 29, 1890: "My wife was for years an invalid from a blood trouble, and sufferd terible at times from Erysipelas. She tried many remedies advertised as blood purifiers, but received no benefit. A few bottles of Swift's Specific (S. S. S) the best blood purifier and tonic she ever saw, and is willing for any one suffering as she was to be referred to her.

HIS BLOOD POISONED BY COW ITCH.

About five years ago my blood was poisoned with cow itch, and every spring since then I have been troubled with the poison breaking out in large sores all over my body. I tried various remedies without receiving any benefits Three bottles of Swift's Specific (S. S. S.) effected a complete and premanent cure, when all other blood remedies had failed.

LIPPINCOTT'S MAGAZINE, with its varied and excellent contents, is a library in itself.

It was indeed a happy thought to print an entire novel in each number.

Not a short novelette, but a long story such as you are used to get in book form and pay from one dollar to one dollar and a half for.

Not only that, but with each number you get an abundance of other contributions, which gives you a good magazine besides the novel.

The ringing blows which have been struck on the gateway of popular favor, have resounded throughout the entire land, and to-day Lippincott's Magazine stands in the front rank of monthly publications, and is the most widely-read-and-talked-of publication of its kind in the world. For full descriptive circulars, address LIPPINCOTT'S MAGAZINE, Philadelphia

A Kitchen Oilcloth.

A cheap oilcloth for the kitchen may be made of cheap, heavy toweloth or burlap fitted to the room. Nail it on the side of an outside building and cover the cloth with a thick paste made of rye flour. When this is dry, paint it a good, cheap strong brown. In two weeks time paint again, and in two weeks more give it another coat. Let it remain until well seasoned which will be in two or three months. Then varnish and nail down. This oilcloth, it is said, will last for many years.—*New York Tribune.*

The Summer at Atlantic City.

THE PENNSYLVANIA RAILROAD'S GREAT FACILITIES.

The prospects for a brilliant summer season at Atlantic City were never so bright as at the present time. The extraordinarily liberal patronage which it has gained during the winter and spring season, largely due to the magnificent transportation facilities maintained by the Pennsylvania Railroad, is still manifesting itself in the well-filled hotels, which bid fair to hold their visitors well through the early summer season. The city by the sea is in better condition to entertain and amuse its friends than ever before. New hotels have been built, and older ones remodeled and enlarged. The great ocean boulevard has been completed, so that Atlantic City now possesses the handsomest and most attractive ocean front of any seaside resort in America. All indications point to the largest summer season in the history of the place.

The Pennsylvania Railroad Company has kept well in line with the spirit of improvement which has pervaded the seashore. Its facilities for promptly and comfortably handling large numbers of people have been increased so as to supply any possible demand; the road-bed of its double line has been improved greatly, and the terminal facilities both at Philadelphia and Atlantic City have been enlarged and improved. The betterment of the tracks will enable the management to materially reduce the time between the Delaware River and the sea, and the summer schedule will present the quickest, best equipped, safest, and most satisfactory service of trains for everybody ever enjoyed by the hosts of Atlantic City's summer patrons. The comprehensive system of excursion tickets leading from all points on the Pennsylvania System will be available as in the past years, at the exceptionally low rates that have heretofore prevailed. It would be well for readers to remember that a summer trip that does not include Atlantic City lacks the spice that would make it memorable.
